R-Module

1) Concrete assessments will have the following option:

✳ Create R-Module

2) Select the CSC system "R-Module". A translated version might be available.

Create R-Module

Are you sure you want to create an R-Module for this assessment?

Project *	███████████████████
Scheme *	Concrete Sustainability Council (2019) (R-Module) ▼

Yes, start the R-Module

3) The original certification body of the parent assessment is pre-selected. There is the possibility of a change.
4) Go through the criteria, upload your evidence as usual.

Assessment: Concrete Sustainability Council (2019) (R-Module) (Bespoke) (2.0 English)

Pre-assessment 0.00%
Final result   0.00%

Sections				
R-Module ☐	R1	Responsible Sourcing		☐
	R2	Traced R-Material Supply		☐
	R3	Recycled Material Consumption		☐
	R4	Quality management		☐
	R5	Minimum Recycled Material Content		☐

5) Register the assessment. In the background, this assessment is linked to the 'parent' assessment from where you created the R-Module. So when registering, the registration number of the 'parent' assessment is used with '-R' appended to it. Registering a R-Module will use 0.5 registration right. The R-Module cannot be registered before the parent assessment.

Registration number	6-CSC19-2018-R (registered May 14, 2020 and published)

6) After uploading all the evidence and filling out the criteria, the auditor can start the assessment as usual.

7) The auditor validates the evidence, creates the auditor report, submits the assessment, and creates the certificate.

Generate reports

Report type *	● Certificate ○ Expert report
Language	[▼] When a language is selected the certificate is not saved, but only offered for download.
Certificate date	19-05-2020 Leave blank to use todays date
Certificate expiration date	[ ] Leave blank to add three years to the Certificate date
Version label	01 For example: "Conversion number:"
Version value	R-Module
Page 1 text	Example Text under the signature. Rendered below the signature.
Page 1 footer text	Example text. Confirmation of CB.
Scope	Scope: 1 R-Concrete. All R-Concrete leaving the plant?

8) Certify the assessment, so the certificate will be published. Check the correct publication date.
The expiration date of the R-Certificate is the same as the parent certificate, even if the R-certificate has been obtained at a later point in time.

Additional Notes:

- The R-Module is visible in the overview of its 'parent' assessment and vice versa
